Tiffany:

It is the same:

EPA - \$2,000,000

TCEQ - \$ 500,000

Also, remember, we cannot exceed these budgets so that means that we will stop before we think will be reaching it. My numbers also include writing up my final project report.

Thanks

Great. That would be really helpful. I'm glad the TCEQ is picking up some of the disposal costs. Is that additional to the \$500k they initially offered or part of it?

Thanks again for the update. I appreciate it.

Best,

Tiffany Hogue

Tiffany:

I have been talking with TCEQ but it is not clear yet on the schedule for the VCP and the anticipated start date for the PRP Group through the TCEQ VCP. They are still working through the legal issues associated with liens on the property and the transfer of the property into the Custodial Trust. I am hoping to have a schedule sometime this week from TCEQ but it will likely be just an estimate.

On the EPA Money, I should be able to at least go through the end of April and maybe even further since the TCEQ is now picking up some of the disposal costs.

Thanks

Thank you Gary.

I appreciate the update. Have you by chance heard any status on additional funds through PRP program or where TCEQ is on that? When do you expect to be through all the EPA's allotted \$2 million for this project?

Hope you've been able to knock out that cold you had last time we saw each other.

Talk soon,

Tiffany Hogue
